

Two

Use materials from Deut. 33:12

12 About Benjamin he said: "Let the beloved of the LORD rest secure in him, for he shields him all day long, and the one the LORD loves rests between his shoulders."

Let Jesus rest secure in Benjamin for Benjamin will be a shielding wall on each side of Jesus all during the Lord's day? And Jesus who the Lord loves will exert headship over Benjamin and place this headship between Benjamin's shoulders. The two shoulders that are close to the head.

Correlate with the presence of the two 28s (curtains) that are found on each side of the ark of the covenant. (1 Ki 6:24 NIV) One wing of the first cherub was five cubits long, and the other wing five cubits--ten cubits from wing tip to wing tip.

In the above the curtains and the cherubim contain five.

Do a study of Benjamin with Joseph. His purpose = to accept the cup and 5 that the Jews might truly recognize Jesus.

Bring in Mahanaim the two camps.

Deut: 33:17 Joseph with the horns of a wild ox he will gore the nations. Two horns.

17 In majesty he is like a firstborn bull; his horns are the horns of a wild ox. With them he will gore the nations, even those at the ends of the earth. Such are the ten thousands of Ephraim; such are the thousands of Manasseh."

Bring in the leviathan and the Behemoth. Two in opposition but the Lord will use them to "shape up" his treasured possession.

The Schulamite must be analyzed as well. The transfer from David to Solomen.

Use the stones to identify Benjamin and Joseph.

Bring in the study of stones and include this one:

(Gen 31:41 NIV) It was like this for the twenty years I was in your household. I worked for you **fourteen years for your two daughters** and **six** years for your flocks, and you changed my wages **ten** times. Time spent working for sheep & goats.

Compare the above with the numbers in the curtains 28.

Bring in study of leaves, honey, and hair. One against and one for.

Caleb and Joshua.

Cherubs & (Exo 39:12 NIV) in the third row a **jacinth**, an **agate** and an **amethyst**;

companionship, fellowship, partnership.

| | | |
|---------------|--------|----------|
| Gad | Asher | Issachar |
| Good fortune. | Happy. | Reward. |

Check to see what the dominant stone is in each of the four sides. Then try to take two from each and make sense of it. The above three are $\frac{1}{4}$ of the 12. They (check) are not found in the King of tyre.

The two pillars that Samson pushed down and destroyed the Philistines.

Bring in six and six = 12. Than $12 + 12 = 24$.
